Utrisha™ N

NUTRITIONAL EFFICIENCY

Biostimulant
Foliar

Key Information

- **Crops*:** canola, cereals, corn, soybeans, potatoes
- **Ingredients:** exclusive nitrogen-fixing microbial strain, Methylobacterium symbioticum
- **Foliar rate:** 135 g/ac (40 ac/bag)
- **Timing:** canola, cereals, corn - 4 leaf stage until pre-senescence; soybeans - 3 leaf stage until pre-senescence; potatoes - during active growth. For best results apply in early morning when leaf stomata are open.
- **Product size:** 1 case – 2 x 5.39 kg bags
- **Water volume:** ground - minimum 40 L/ac (10 US gal/ac)

Utrisha™ N Nutrient Efficiency Biostimulant Features and Benefits:

- Maximizes crop potential by increasing nitrogen availability, resulting in **healthier and more resilient plants**.
- **Compliments and diversifies a conventional nitrogen fertilizer program** by providing nitrogen at critical times during the plant's life cycle.
- **The simplest way to provide supplemental nitrogen**, giving you the peace of mind that your crop can continue to be its most productive.
- Contains a natural bacteria, providing a sustainable source of nitrogen that **reduces dependency of nitrogen uptake from the soil**.

Give Your Crop The Nitrogen It Needs, When It Needs It.

Utrisha™ N maximizes crop potential – utilizing natural bacteria to capture and supply nitrogen to plants when they need it most.

Utrisha N is a nutrient efficiency biostimulant. The natural bacteria, methylobacterium symbioticum, fixes nitrogen from the air and converts it for the plant. Utrisha N enters the plant through the stomata and colonizes in the leaf cells. It then converts N_2 from the air into ammonium, resulting in a constant supply of nitrogen to the plant.

No plant energy is required for this process.

Utrisha N provides a sustainable, alternative source of nitrogen that reduces dependency of nitrogen uptake from the soil and ensures the plant has access to nitrogen all season long, without the risk of leaching into water tables or releasing additional greenhouse gasses.
