

HighNoon®

HERBICIDE

HighNoon® Herbicide Vegetation Management Handling Recommendation

HighNoon® herbicide is a suspension concentrate (SC) formulation that allows for a flexible use rate. As with all SC formulation types, it is recommended to shake or mix the product prior to application for best results. Below are best management practices for mixing HighNoon herbicide.

	4x1 Gallon	2.5 Gallon	Tote (250 Gallon)
BEGINNING of Application Season (BEFORE first application from product container after opening for use)	Shake Well Before Use	Shake Well Before Use	Mix for 30 minutes
DURING Application Season	Shake Well Before Each Use	Shake Well Before Each Use	Mix for 30 minutes Per Month
AFTER Application Season	No Mixing Required as Product Will Freeze ~25°F.
